OCULUM-OS AUTOMATION SERVICES // CONSUMER BRIEFING

> **« Your life, automated. Your time, reclaimed. »**
>
> Ether System // Oculum_OS

01 // EXECUTIVE SUMMARY

Why allocate invaluable human hours to repetitive physical presence, routine professional obligations, or mundane domestic tasks? Ether System introduces Oculum-OS: the definitive automated management protocol designed to seamlessly pilot surrogate body units directly from the comfort of your home interface.

> **« While you rest, Oculum executes. »**

02 // SERVICE TIER SUBSCRIPTIONS

TIER LEVEL	AUTOMATION SCOPE	OPERATIONAL PARAMETERS
OCULUM BASIC	Domestic & Transport	Automated grocery acquisition, residential maintenance, basic logistics. Household presence guaranteed.
OCULUM PRO	Labor & Workplace	Full surrogate control during designated labor hours (08:00 - 16:00). Standard professional tasks executed flawlessly.
OCULUM PRIME	Full Social & Life Management	Automated courtesy exchanges, social gathering attendance, call responses. Complete life-cycle delegation.

> **« Never miss a moment. Never lift a finger. »**

03 // SYSTEM OVERVIEW & MONITORING

The integrated Oculum vector visual mesh continuously scans and regulates surrogate outputs. While you rest, disconnect, or sleep, our central systems maintain 100% operational efficiency across all assigned physical sectors.

DISCLAIMER & TERMS OF USE: Ether System holds no liability for prolonged subject disuse, emotional disconnect, or consciousness detachment resulting from total life-cycle automation. In the event of primary user inactivity, background processes will persist as scheduled indefinitely. Oculum-OS continues execution until system energy depletion.
